

The funds provided by regional, state, and federal agencies enabled urgently needed ASI developments around the country.

“Working with ASI back in the mid-90s has proven to be one of my program’s wisest investments. Having affordable and accessible housing available for survivors of brain injury is one of our best resources. I thank you for your extraordinary vision and for all the work you have done across the country.”

— *Jean Doster, Director, State of Tennessee Department of Health / Traumatic Brain Injury Program*

“Congratulations! It is my pleasure to inform you that Accessible Space, Inc. has been selected to receive the HUD Phoenix Field Office’s Most Valuable Partner (MVP) Award for supporting HUD’s initiative of Building Inclusive Communities Free From Discrimination. This award recognizes your outstanding performance with providing new housing choices for the disabled with the construction of the R.J. Piltz Vista Bonita in Mesa, Arizona.”

— *Tony Ramirez, Acting Field Office Director,
U.S. Department of Housing and Urban Development / HUD Phoenix Field Office*
