

2011-2013 Benefactors

The generous gifts made by these loyal donors enable Accessible Space, Inc. to open doors for thousands of people with disabilities, as well as seniors. Opening doors means many things—building new accessible, affordable “housing with care” residences, upgrading and renovating accessibility features in existing apartment buildings, installing automatic door openers in individual apartments, and giving residents increased opportunities to build social and life skills in the communities in which they live. Thank you for your support. It makes a world of difference.

We make every effort to be accurate and complete and sincerely apologize if we have misspelled or omitted any names. Please contact us at info@accessiblespace.org with any changes.
